Since 1993, **John Cleasby** has served as an IRCC Associate Board member and apprenticeship ancillary instructor in the safe use of roofing equipment and installer safety. With the advent of the **CRU\***: John has now added the following courses to the growing list of associate-collaborating training resources which available for the IRCC's State recognized 'Journeyman Upgrade' program.

- Kettle use and safety
- Hot rubber kettle use and safety ( below grade & plaza deck waterproofing )
- Single ply ( TPO & PVC ) hot air welding use and safety with respect to electrical.
- Cold apply – spray equipment use and safety
- low slope and steep slope safety

## ASSOCIATE DIRECTORY TRAINING TEAM LISTING - CRU ACCEPTED

\*Training course hours earned through this associate's approved training courses are recognized on the CRU's registry for Journeyman Upgrade credits toward State Certifications for "Advanced Safety for Crew Foremen."
